

ABOUT CENTRAL GLASS

THREE GENERATIONS

CENTRAL GLASS was founded by John Dale and Stanley Gordon in 1946 and has been a leader in providing quality glass repair, replacement, and contract glazing installations.

Central Glass opened its doors in a small, one room shop located on Centre Street in Brockton, a short distance from the city center. In 1962, Central Glass moved its operation to the heart of the City of Champions. In 2017, the company transitioned to a beautiful 15,000 square-foot facility in West Bridgewater.

What began as a one bay garage with a single office has expanded tremendously to include multiple service bays, two production and fabrication areas, a large office space and retail counter. With a fleet of

service vehicles, we are able to respond to any glass repair at a moments notice, are equipped with the latest equipment and technology to respond to all glass needs, and our technicians are certified to provide the best possible workmanship available in the industry.

Still family owned and operated for over seventy years, Central Glass is the oldest family owned glass shop on the south shore. Many of our crew members have been with us for over twenty years and are considered members of our family.
